FARIS HITTINY

832-330-0036 | faris@farishittiny.com | farishittiny.com | github.com/FarisHittiny | linkedin.com/in/farishittiny

EDUCATION

Texas A&M University College Station, TX
Bachelor of Science in Computer Engineering, GPA: 3.64 *May 2027*

TECHNICAL SKILLS

Languages: Python, C, C++, C#, JavaScript, SQL, Bash, Verilog, MATLAB
LLMs & Retrieval: RAG, LLM evaluation, LLM-as-judge, BM25, sentence-transformers, Azure OpenAI, OpenAI API
Machine Learning: PyTorch, YOLOv8, Detectron2, OpenCV, scikit-learn, NumPy, networkx
Software & Cloud: .NET, FastAPI, React, PostgreSQL, SQL Server, Git, Linux, Docker, GitHub Actions, AWS, Copilot Studio

EXPERIENCE

Aramco Houston, TX
AI/ML Engineering Intern, Digital & Information Technology *May 2026 – Aug 2026*

- Engineered AI-powered invoice extraction on Azure OpenAI, with anonymized datasets and validation pipelines measuring 99.8% extraction accuracy against 8+ years of production billing data.
- Streamlined carrier invoice processing (AT&T, Verizon, T-Mobile) covering 500+ active corporate lines in Cellbill Manager (C#, .NET, Entity Framework Core, SQL Server), eliminating manual reconciliation.
- Halved a bulk employee-status refresh (6.5 to 3.3 min) by benchmarking HR API concurrency, capping parallel lookups at 12.
- Co-captained a 6-member capstone team designing an AI interview scheduling agent (Copilot Studio, SAP SuccessFactors), projected to save 86 hours/year; presented to the executive board and won the Excellence in Teamwork Award.
- Prototyped AI agents on Salesforce Agentforce, grounding agent actions in org data and testing failure modes before rollout.

Texas A&M University College Station, TX
AI/ML Undergraduate Research Assistant, Disease Management in Animal Systems *May 2025 – Dec 2025*

- Developed and benchmarked 10+ deep learning models (YOLOv8, Mask R-CNN, Detectron2) for ear-tag detection in continuous field video; best model reached 89.6% mAP@0.5 at 89.5% precision and 89.7% recall.
- Labeled 10,000+ images from 4+ months of video and automated preprocessing on Slurm (HPC), cutting manual work 60%+.
- Led an 11-member team presentation of results at Texas A&M's 2025 Undergraduate Research Expo.

PROJECTS

Course Catalog RAG with Eval Harness | *Python, BM25, bge-small, networkx, FastAPI* github.com/FarisHittiny/catalog-rag

- Built a retrieval-augmented QA system over 148 Texas A&M ECEN/CSCE courses, scored against a 129-question hand-verified gold set; retrieval eval and unit tests run in GitHub Actions CI on every push.
- Routed prerequisite questions to a networkx graph and code-free questions to dense retrieval, raising recall@5 from 0.61 to 0.90 and answer correctness from 51% to 79% over a BM25 baseline.
- Graded answers with an LLM judge at 90% agreement on 30 human labels; confirmed the routing fix on a 14-question held-out set (recall@5 0.91) and served it through a rate-limited FastAPI service in Docker.

Boba Shop Point-of-Sale System | *React, Node.js, Express, PostgreSQL, OAuth – CSCE 331* Jan 2026 – May 2026

- Built a full-stack POS system in a 6-member Agile team; owned the customer React frontend, OAuth login, and a Gemini chatbot.

AI-Driven Demand Mapping | *Python, AWS – Tidal Hackathon (Top 10 of 200+ teams)* Oct 2024

- Created a Python/AWS ML pipeline analyzing 50,000+ sales records to recommend Amazon warehouse locations.

LEADERSHIP & INVOLVEMENT

Arab Student Association (ASA) | *Membership and Fundraising Chair* Jul 2026 – Present

- Lead recruitment, retention, and fundraising (partnerships, merchandise, events) for a 500+ member organization.

Arab American Association of Engineers and Architects (AAAEA) | *Technical Outreach* Sep 2026 – Present

Vertical Flight Society (VFS) | *External Relations* Sep 2026 – Present
